DETAILED ACTION

*Continued Prosecution Application*

The request filed on 12/29/2003 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09178594 is acceptable and a CPA has been established. An action on the CPA follows.

*Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 20, 21 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

A. X and Y as carboxyl and thiocarboxyl lack description. These appear in claim 20, page 4, line 1 for carboxyl, line 2 for thiocarboxyl. The reasons were given in the examiner's answer. This rejection was affirmed by the Board of Patent Appeals and Interferences as issue 2, pages 5-6, and this is considered dispositive of the matter.

B. The list of substituents on these X and Y choices is broader than appears in the specification. For example, the ester and thioester groups appearing in the last 3 lines of claim 20 lack description in the specification. Similarly, there is a carboxyl at the 3<sup>rd</sup> and also at the 7<sup>th</sup> from the last line of claim 20. All substituents for this list must be provided for in the specification. This rejection was affirmed by the Board of Patent

Appeals and Interferences as issue 3, pages 7-8, and this is considered dispositive of the matter.

Claims 22-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

All claims are drawn to the same invention claimed in the parent application prior to the filing of this Continued Prosecution Application under 37 CFR 1.53(d) and could have been finally rejected on the grounds and art of record in the next Office action. Accordingly, THIS ACTION IS MADE FINAL even though it is a first action after the filing under 37 CFR 1.53(d). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
